Barbara: Hi Eoin
Eoin: hi Barbara, how are you?
Barbara: I'm good good thank you yourself
Eoin: I'm good I'm good thanks, pretty good so is that yeah I called Lewis said he was in the bathroom, so guys how's everything going with you guys is all is all good health wise and everything?
Lewis: not too bad it's not too bad
Eoin: okay okay okay so yeah when you say not too bad that's a very Irish thing, but that means good right
Barbara: yeah yeah yeah no we are good
Eoin: okay yeah we're such a negative culture you know oh not too bad like you can't say good or like oh you know yeah so well I'm glad I'm glad, I sometimes have to do those interpretations well so yeah um so some things have come up for me, and uh you know we have things to talk about so. All right so I talked to my management company and I'm gonna try to get you guys another house, um here's what happened things have kind of changed for me you know you know **we had this disaster with the fires here um and I've lost a lot of work because of that venues are closed down** and um um so here what do you think of this so my preference now and sorry to go into this right, away it's just you know, my preference right now is to sell the house [Ref VN01] I kind of want to get out of landlording and I want to just basically get whatever I can for the house and move on.
Eoin: But I'm thinking of you guys and your situation also, so you may have something to tell me too did you, did you guys search out anything else or because I know you tried for a bit but have you looked at anything?
Lewis: I was just still trying at the moment it's uh it's really hard I know it's impossible
Eoin: no no bad I know okay okay so we're kind of on the same page uh but if you can't find anything obviously that's an issue so what I did is, I talked to my old management company a woman named Rebecca and I said do you have anything on the books I have this great couple very reliable good jobs, and she said she has one property on the books which is a miracle because to even have one property in this uh in you know in this climate is is amazing but you know it's not ideal it's in Wilton which isn't far um she said it's 1850 [Ref VN02] which is expensive uh but not as expensive as a lot of places.
Eoin: it's it's a terraced house like mine but she said it's only two bedroom now here's the thing, if you guys are interested she is going to do all of us a favor and give you guys a fair shot and she'll show it to you she's willing to show it to you and in my opinion at least because here's here's what would be in it for her and sorry to put all this on you now I know it seems like this is coming out of nowhere, but it's all kind of happened this morning in in my thoughts towards my call to you because it, it all kind of came up and I talked to Jessica about it and I talked to my sister because my mother, uh she's 88 and she's not she's not ill but she's very frail it's what I'm gathering
Eoin: and so I need to spend time with my mother and I and my brother still has his kids at home they never left so he's got three boys at home so **I can only stay with him temporarily** so my my thing now is like what, and as I said this is just kind of all come to a head, um pretty much this morning uh because Jess and I we were thinking of **going anyway for a little bit** but like so then I called the management company like right before I talked to you like only 10 minutes ago I told her the situation and I think if you guys were interested in that house and you know everything checked out my feeling is she would put you in the front of the line to help us but also to help their company because they're going to get the listing of my house when I sell it so that'll be commissioned for that and so it's in their

best interest to have my house available for sale and **I'm not going to sell it until you guys until such time as you guys have a place to go.**
Eoin: so that that's basically the situation and if this particular one works out I'm willing to still supplement some of the rent over there for you because 1850 even though it's not the most the craziest rent that's possible in Cork right now it's still going to be a hike for you guys if it works out
Lewis: so sorry what was the you said supplement the pay, sorry I just got confused by that
Eoin: uh oh yeah so she said the rent is 1850 yeah um but I would give you guys some money towards that because I said that I would supplement help you guys with the higher rent at my place, so I will still honor that if this place works out for you I will still when I sell my house pass some money on to you that will help with those first four months is what we talked about so like remember I said that in my house I would bring your rent down to 1500 for the first four months
Lewis: yeah
Eoin: so I would still do that over there so like let's say you were 1850 you know we would bring that down to 1500 what if it were 1500 so multiply 350 by four and I would just give you that guys give you that money to give you that start for the first four months and then in the meantime you know I don't know what's it like you could try to sign like a six-month lease there uh instead of a one-year lease I I don't know the people I don't know what they would agree to, but Rebecca she's the manager you know she's going to be on your side you know what I mean if you guys I know what I'm saying is obviously she's going to represent the landlord of course but at the same time I think she's given the circumstances and given the conversation I had with her at least you're going to get to view the house and have a fair shot if you're interested in the house, so yeah so I know that's a lot that maybe it seems like it's coming out of nowhere and for me too like it's this is not the conversation that I thought I wanted to have was going to want to have with you guys when we you know arrange this um meeting so anyway what are you guys thinking?
Lewis: um so what kind of time period would that be?
Eoin: I think the place is available now, so like you wouldn't have to move like for me and **I would say like maybe I'm going to come back in a month** and so but like if that place is available and you wanted to move sooner well that would work that's fine with me if that's what works for you or if you wanted to stay a little longer at my place that would be okay too you know like let's say you could you know maybe till like you know the end of May or something so it's like almost almost two months but I don't know when that place is available I just know she's showing it tomorrow, like let's say you did take it and you had to take it immediately then let's say you had to sign the lease and whenever you start getting rent then I would refund you whatever because what is it now it's April and you've already, you haven't paid the April rent yet but we would just go pro rata the day if you had to move out let's say and again I know this is a lot and you guys have a lot going on and it's just my my whole situation over here has changed because of the fires like we have had I mean I'm lucky in the sense that like our place survived and it was there was minimal damage but like everything in our neighborhood is I mean north of us everything is gone and like regular gigs that I've had they've just disappeared I just heard from somebody yesterday you know it's like oh you're having this gig this thing I used to do every six months it was a really fucking nice gig and they said well three quarters of the people involved in this two-thirds I think she said have lost their homes and so it's like anyway but look I'm talking too much forget about my situation just um so I do you want me to check my email and see if she's emailed me that listing already

Lewis: um yeah I'm just not sure because of our work and we both work from home we can't be in the same room for legal reasons for our company because of private information being shared so
Eoin: yes of course that
Lewis: that's something that is a massive risk as well for us um and
Eoin: oh this actually so okay two bed one bath okay so
Lewis: so if we weren't able to take this house right now what would be what would be like the timeline of events with yourself in the house
Eoin: well I mean the thing is like **I'm planning to come in May** so like if you know for me preferably I would like **to move back into the house** in May, but that's not that you know if that doesn't work for you guys I obviously I want to think of your situation well I'm looking at this so like if it's a two-bedroom obviously let me see
Barbara: It actually looks, it's not only about that we work from home it's about the baby as well. You know
Eoin: of course and
Barbara: I mean I'm like right now I'm 34 weeks so the baby can come at any point. I'm not sure if you're able to to having the baby do the moving and work at the same you know it's that would be more like it would that like we we need like I don't know it's just having a newborn baby and have to move and work at the same time it's just
Eoin: no no it's hard I know I get it. No I absolutely get it, let me look there's access to the attic too it looks like what's up there. huh interesting um so yeah it it looks like there's a small one bedroom it doesn't yeah it doesn't look fantastic I'll be honest oh what's that it looks like there's are they calling that a bedroom it looks like it's like an attic space that's like a bedroom uh that if that actually is what I think it is that's good news so yeah there's like a there's a single bedroom and then the double bedroom it doesn't look huge let me see the living, area looks good so I actually think there's like an attic space that looks like it's converted,um let me see, are you guys available in the morning are you working in the morning?
Barbara: tomorrow? I'm working in the in the morning
Eoin: until what time?
Barbara: I work from half eight to five
Eoin: oh yeah and Lewis also?
Lewis: yeah around the same time yeah
Eoin: okay um well she'll arrange let's see it's she said it's in Wilton let me see what else is there parking central Washington at least there's parking I don't know I mean look this might all be too much for you guys what is your thought on this? what would your preference be with all of this?
Lewis: uh we are honestly not sure I mean we're looking around and like even hearing the price I mean for the two bedroom that's kind of on the really high end of what we
Barbara: can find three bedrooms for that for that price
Lewis: at the moment yes
Eoin: oh okay so yeah
Lewis: it's very yeah but we have like every time there's one that, pops up we instantly get notification we send off the application and sometimes there's a viewing but you go to the viewing there's 10 people there so
Eoin: yeah and that's why this is an in for you. I what I'm saying is like she would put you most likely she would put you at the top of the list

Barbara: yeah but there's no guarantee that we would get if it was something more guaranteed she'd be like oh yeah okay that like you know that would be something that we were strong consider as well
Eoin: uh I would say it's very much sure
Barbara: and for the price for two bedroom because the location is not an issue for us because we have the car you know, and be at Wilton it's good because it's really close to the hospital you know
Eoin: oh yeah yeah I understand yeah
Barbara: it's just more like I said the time frame of everything the prices for the house the size of the house and there's no guarantee that you know we can just like I can try to make myself available tomorrow say that I have like a pregnancy appointment and trying to go and check it out the house but at the same time we don't have any guarantee that we would take you say she might not even you know for sure if she will put us on the top of the list or not
Eoin: I would say honestly Barbara I would say it's very likely I would say
Barbara: you don't know for sure, and you cannot answer for her which I understand that, you know
Eoin: no but what I'm saying is I would be surprised if she didn't give it to you if you guys wanted it. Quite honestly I think I I think the management company is very motivated because if I give them my house to sell that's going to be money for them and so
Barbara: I get that
Eoin: oh of course I can't say 100%, but like I would say at least at this point you would be at the front you would be at the top of the list it wouldn't be like because I know you told me like when when you apply for places they're already shown or there's somebody or but this is like this seems to me like of course I can't guarantee but like I said to her look you know we would be really great if you could you know and she was like absolutely and she said she'll show it to you tomorrow morning she said she's going to be there at 10am and she's showing it to somebody at 10am but she will if you guys turn up you know one of you are you know she'll show it to you and you know I mean between you and me like I think you've got a very good chance now looking at these photos what it seems to me is that there's an area in the attic so there's a ladder so Barbara you wouldn't be able to do this because you're pregnant, but there's a ladder that leads up to the attic which is an extra space which would be a perfect work room so from what I can see here okay it's a nice looking house parking in the driveway, the living area looks really nice it's furnished the living room kitchen area okay so there's a small one bedroom it's sort of like about the size of the one bedroom you have where you are now, then the other one will fit a double bed it's probably I'm guessing around the same size but I can't tell from the photo bathroom looks nice and and then the third thing is there's there's an upstairs attic with a hardwood floor so why don't I email you this right now yeah I mean like if you guys are totally like against this um like I understand like this is not I understand that none of this is ideal it's not ideal for me either I I promise you but I would say as long as because you guys have good jobs you know you've got a good reference recommendation from me I would be very, I'll say is I would be very surprised if she turns you down
Lewis: think it's more as well like we said the um the prices as well I mean I think we **when you were talking about bringing the price up to 1500 and then come the end of the year we pay what was it the two grand I think we were okay with that because it was short term until we found another place** but with this house will be locked will be locked in and we couldn't sustain it long enough like I said with you if we're paying you two grand it wouldn't be forever because it'd just be until we got into the next house

Eoin: yeah that makes sense, well look here how about this one of you guys can check it out, and then we'll talk so like let's say ask what the lease would be how long it would be. Ask how much you know could you do a six month lease let's say uh you know I'll talk to her, and say and you know I'll ask her like what what's the best you could do like with what you guys want right yeah, so I doubt they're going to lower the price because 1850 is what they're asking, and in this market they can get it unfortunately yeah and that upstairs attic area now there's oh I think did I think I just did I email you the listing or did I just
Barbara: no I haven't got any email from you so I don't think so
Eoin: oh listen and then you and I can talk oh I'm so fucking weird I just emailed it to myself I'm sorry I'm so and then look let's talk then so let's say for example she'll give you a six month lease which would be amazing and then we can talk about what I can do to help you guys supplement that so like obviously I couldn't do that for a year but and then within that time you could I mean look if you have to sign a year lease you have to sign a year lease
Barbara: but yeah like sign up a year lease for that amount it's not something that we're willing to do I'm afraid like we can not afford that in a long term **like Lewis will say one thing it was like you know increase from um 1200 to 2000 for a couple of months the other thing is have that commitment for a year** especially with the newborn it's not that we are against the house it's just like you said like the time frame with me being almost nine months pregnant the moving won't be practical. Lewis will have to do everything by himself while he has to work at us all because I'm gonna have a newborn to take care I'll be like you know god knows like if I'm gonna have to go in the c-section, or how it's gonna to be so I won't be able to do anything
Lewis: so just because we've been talking about this I have a house now for a while but I think just while we've got you here now if the house does turn out to be a no-go um I just kind of want to lock down what the details are gonna happen, like what your story because I mean I know you said you want to come over in May but that'd be literally the time that we're giving birth so I'd like to know, I'd love to kind of confirm now with what's gonna happen so we can kind of be prepared and know what's gonna happen, and what our options are because I mean I understand your your situation you understand ours, but then we're literally just giving birth and then having someone around the house yeah
Eoin: I know I know I know I know uh well here's the other thing if it's related to the you know the moving and the health and stuff I mean if I'm there I'm I could help you guys so that's that's not something and,also you know I could help with your rent for the for you know further than than four months, that's that's a possibility too yeah so I mean I'm saying oh yeah other place yeah oh no no yeah
Lewis: yeah because I'm because I'm talking about because like how long we've been searching already for a house and trying to find one by next month that seems like a very slim possibility like it could still happen but it's still very slim so I'd love to just talk about what happens
Eoin: yeah so well how much time would you guys say then would be the the right amount
Barbara: like we said we have a newborn baby so it's hard to to say it you know
Eoin: yeah I do
Lewis: we're doing everything in our powers to find places we're applying to everything um
Barbara: just like this week we've been checking all the time and just no houses in Cork you know, like the house that we found it like in Sligo there's not even way for us to go there and check it out their house because it's like five hours driving from where we are do you know
Eoin: no of course no no I understand well I mean how about this do you guys want to check it out then tomorrow because it looks like what I can see from the photos I just emailed it to

Barbara so you might get it what it looks like from the photos is you have two real bedrooms then there is a ladder that goes up to an attic space that's converted that would be a perfect workspace, and so it's a two-bedroom but it seems to me that there is also you know what they might call a den or like an office space up in the attic so that would be I mean it so in effect you would have a workroom and two bedrooms so you could have what you have there but it's just a different configuration
Lewis: I mean without a guarantee from the letting agent that we could uh that six months is even a possibility I don't think we can even view it like it's like we said we're okay paying short term but then paying for a year that means we'll have to break the contract and that's a two grand right out of our pocket right away
Eoin: right, but there's a possibility that I could supplement it a little further is what I'm saying yeah so like let's look at those options because I get it like that's a rent hike you got a new baby but what I'm saying is like when I sell my house I'm going to be able to supplement your rent a little longer if that's necessary. So I'll ask Rebecca if six months could be possible and if they're going to force you to sign a one-year lease then I'm going to help you further but like I can't tell her like I can't really say to her, hey these are our terms because you know the
Barbara: yeah no no we get it
Eoin: you don't know this landlord but like my feeling is, you know it's after business hours now but I could send her a message and say look they're really interested or is it possible that they could be on the at the front of the queue and look honestly look I mean if I were a betting man I would say that's a given that she's the one responsible for renting it I think under these circumstances like I would I mean of course I can't guarantee but like I'm 90% sure that she's going to pick you guys over anyone else like that's the conversation I had with her because they want my house to sell they can't want it and so of course they do I mean she didn't say that but I mean obviously like they're in this the business of selling and renting houses and there's very few houses to sell so you know any house that they can get they're going to do whatever they can and, so look how about this then let's see if one of you guys can can go check it out tomorrow at you know sometime after 10 like you know I can tell her or you guys can tell her that you can be there at 10 30 let's say because if she's showing it to someone at 10 yeah
Barbara: yeah if you can share like Lewis phone with her you know so then it might be better for them to talk and arrange like the the time because
Eoin: perfect and I would say look quite honestly like if you can get there I know you guys have work and stuff but if there's just a way you can get over there for you know for like 10 30 because, if she shows it to one couple or whoever it is and and then they say they want it and she hasn't met you guys yet well then obviously the person that's in the room has the most thing, but if I tell her or you tell her that you guys are coming at 10 30 tomorrow well then she's not gonna offer it to the other person on such time as she has met you
Barbara: I think like if you could like message her like you said and just inform that like and send her contact to us so like give her Lewis contact yes and give her contact to us so then she aware that you spoke to us she'll be like waiting for us and then we can see with her so this way you don't have to be mediating anything we can just talk direct directly to her and see what time would be better for her for us to go there tomorrow like I said I can just say that I have a last minute pregnancy appointment something like that
Eoin: okay do you know okay that's great yeah because I think we got to jump on these things and then look yeah we'll try to see then if we can get like a six month lease so like try to say like we want to do a four month lease or a six month lease and they might go for that,

you know and I mean I'm hoping like you know that would be the best case scenario and then if they're forcing a one-year lease then we can talk because you know I will help you guys because look I'm when I sell the house it's not like I'm gonna have a lot of money you know I still owe the bank and the taxes take a lot of money and real estate and whatever, but like you know I'll help you a little further than what we agreed you know what I mean so I'll do that so and again sorry I know this is the conversation that none of us were expecting at this point but I'm kind of at a point where like you know I just everything so much has changed in the last few months and when I spoke to my sister this morning and she told me about my mom **I was like look I've been away for a long time** and I need to spend time with her because I'm not saying she's you know but she's 88 and she's frail that's all I know that's the only information **I have and I haven't seen her like in a year and a half** so it's kind of like anyway I know I'm sorry I've talked too much

Lewis: yeah I just had like one two questions, say yeah if you are moving back we've kind of got like the master bedroom and anything else is just like office and like living room like is there anything you like would you want us to like empty out one of the rooms and set it up as a bedroom for you or would you just be looking to just pop around and like I just understand because right now like virtually there's there's nothing here for you but if you're coming around we'll have to prepare all the rooms and make sure it's okay for you

Eoin: yeah yeah I say let's not worry about that now Lewis for now we can talk about that later but I **I don't want to bother you guys** it's your you know what I mean **I don't want to invade your privacy or anything like that** so yeah I just like

Barbara: it's not about invade our privacy, but I don't think you're going to be comfortable around the crying baby to a difference

Eoin: no no I understand all of those things yeah no no but I actually have a feeling this is going to work out like I have a feeling this is going to be a hopefully a smooth transition for you guys and I'll text Rebecca now and tell her look this if this works out if you can make this work out or help them work out, and don't say anything about me supplementing the rent or whatever just like yeah you know 1850 is fine for you guys for a six month lease you know and then get back to me if they if they can I'm going to ask her if a six month lease would work obviously that's going to be the best case scenario and then I'll tell her that you guys can come at 10 30 and I'll send this to Lewis you want Lewis number

Barbara: yeah I think it'll be better yeah I think it's like you know Lewis is the one who drives and me being pregnant oh yeah of course it's better for him to go he'll be faster on that than than myself

Lewis: uh oh you said um I don't ever heard you right earlier you said about the supplement that uh yeah you'd use the profits from the house to get to pay us the the supplement so is that the same thing here now for this for this new house then we'd have to wait for you to sell the house or

Eoin: no you know what no I could help you guys right away for the first like month or two because my house is going to sell fast if I put it on the market like it's going to be gone most likely I think houses are selling in a week or two but I mean there's work to do on it so I'll have to be in there fixing things and yeah you know getting rid of stuff or whatever else and you guys don't need to do anything I'm sure you've kept it I'm sure you've kept it fine but like I'll go and you know yeah fix the floor downstairs or whatever needs to be, but like I'm not going to do too much because you know but I'll you know little things that I can do I'll do but like um what I'll do is like when you guys have to move then I'll send you uh you know I'll arrange like so it'll be 350 euro for the first month or whatever and I'll send you your deposit back which is I think about 1100 I have to look it's 11 or 1250 I think you gave me so we

have that anyway uh so I'll give you that and then I'll give you the 350 and then the next month I'll send you the 350 and then maybe after that you know so we'll say like I'll just send you guys 350 a month for at least four months and then we'll see we'll see what happens after that

Lewis: okay could we get that in writing from you?

Eoin: oh yeah you can get it in right don't worry Lewis I guarantee you my friend Jessica's in the she just walked into the room Jessica am I honest? if there's one thing I have Lewis it's integrity

Lewis: oh no yeah that's fine

Barbara: we have no question about that but you know with the baby we we just like if it was just the two of us we'd be fine but with the baby we're very like now we're more concerned and want to make sure everything's fine

Eoin: no of course no I I got you I got you for at least four months and and um I also uh what was it no I also think we trust each other yeah yeah you and I after all all this time we trust each other, like there's not like you haven't done anything against me I haven't done anything against you, it's just like we agreed on something verbally and you know there's no question but like you know I can send you a WhatsApp thing and say hey if this Wilton thing works out I'm gonna give you guys, 350 for the first four months I'll text you that right now and so yeah you'll have it in writing, but like um it's not um you know and and then we can talk further no. I'm happy to do it look honestly I'm happy to do it because I know your situation it's tough and the timing with the baby and it's just like the timing with my situation and my mother and the fires and all of those things coming up at the same time it's just like what the fuck like like Ireland used to be that like if you wanted to move out of a house you could move into another house down the street it was now it's like I don't know what the hell is going on in that country but like if they you know they didn't take care of what they needed to take care of um housing wise in the in the past 10 years or whatever, and so now there's there's all this these difficulties and so you know but look thank you guys for listening to my long-winded explanation

Barbara: oh no worries no we thank you for like you know all the effort you're trying to put in to help us as well we do appreciate you know it's always good to have someone in our counter, know that you are on our corner helping us as well because like Lewis said we like checking all the time every time we go and see the house and there's like 10 people 20 people over there you know we're trying to like we wanted the house oh you have to email us, and someone we get back to you and we never hear back from not even to say like no thank you it's just ike completely ghost you know yes i know i was just like oh my god and as far as goes with the pregnancy i was like oh my gosh i won't be able to do much very soon and it's just putting a lot of stress and weight on our shoulders so i appreciate it we do appreciate a lot your help that really helps thank you so much oh of course

Eoin: no you're welcome and honestly I want it all to be yeah smooth i want you guys to remember my house uh fondly and the experience and and and if i'm there um when you guys are moving if i'm in cork which i'm i'm well might be um i'll help you guys move my my mother's going to get me a steward on her car and and i'll help you yeah and so you know don't worry about that like if if i have my mother's car which and oh jess might come too you say you'll help

Jees: i do yeah she's pregnant she can't carry anything

Eoin: okay you have a whole crew all right yeah she might not be she might not be able to come because she's she's got some commitment but okay so so let me um

Barbara: yeah go talk to rebecca and yeah

Eoin: yeah and i'll email you i'll send you i sent you that link did you look
Barbara: yeah we did we do we took a look yeah
Eoin: yeah and you see that attic it looks like an attic space right it looks like a workspace
Barbara: yeah so um and we need to go down see in person to see like the size if actually would be like you know able so yes we'll see we will take one step at a time just uh yeah uh so talk to rebecca and then tomorrow louis go there and see what's the story and we take him from there
Eoin all right perfect all right thank you guys no problem talk to you soon bye-bye okay bye-bye
